

Delicious

Regal Degal

I hear a lonely cyborg
Sing a techno lullaby
It rocks me slowly back and forth
Up and down and side to side You say delicious
I open wide
It tastes and feels delicious
I swear I think I've died Walking with my counterpart
Waxing human sacrifice
If you ever break my heart
I wonder if you'd apologize You say delicious
I open wide
It tastes and feels delicious
I swear I think I've died Honest recollection
Feelings deep inside
I'll fix this poor connection later
I haven't had the time You say delicious
I open wide
It tastes and feels delicious
I swear I think I've died You say delicious
I open wide
It tastes and feels delicious baby
I feel so satisfied
