

We're In This Together (Universal Feeling Mix)

Simply Red

All eyes were clouded, nobody knows
How the world wasn't able to see that they were wash-up failures
My eyes are open, my love is strong
I am here to stay and it will always be that way We're in this together
We're in this together
Forever
Together My line is long, my soul it rolls
Somewhere on the train of universal feeling
My eyes are open, just like the ocean
From the people in need to the sun and the seas We're in this together
We're in this together
Forever
Together
Forever
