

Forgotten Souls

Our Last Night

[Verse 1]

A mother's love, close enough to touch

 A false front was all it was

 A passion so fake, controlled by the play

On the darkest of days, the daughter was sold away[Chorus]

 A warm heart numb to the pain

 The hopeless tears fall from her face

 Forgotten soul born in a grave

 Fifteen years locked in a cage

 Our daughters are too scared to stop them

 Our sons, what have we taught them?

Have we really strayed this far from love?[Verse 2]

 Her body enslaved into sin and under age

 She hopes and she prays for someone to take her away

 Holding her breath waiting to drown

 She's in over her head

 The world is spinning while she's missing from it[Chorus]

 A warm heart numb to the pain

 The hopeless tears fall from her face

 Forgotten soul born in a grave

 Fifteen years locked in a cage

 Our daughters are too scared to stop them

 Our sons, what have we taught them?

Have we really strayed this far from love?[Verse 3]

 No one to even say goodbye

 She sees no value in her life

 This is not the rise and the fall of the tide

 A pain in the chest and two watering eyes

 Have we really strayed this far from love?
