

# Invasion 1

## Matthew Good Band

We wore pink in the 80s  
What were we thinking  
I got a brain cloud from the black light in your room  
Built to be seen, just crazy  
It just made us jumpy when we should have been smooth  
How do they save you from yourself?  
How do they save you from yourself?  
How will she save me from myself? I know just what you mean  
Who will spearhead the invasion  
I know just how you feel  
Who will spearhead  
Dropped off the face of the earth  
Bobby is my hero for that  
Down a hole with the Grinch's antler dog  
And Yukon Cornelius  
When I'm sober I need this I know just what you mean  
Who will spearhead the invasion  
I know just how you feel  
Who will spearhead I know just what you mean to me  
Who will spearhead the invasion  
I know just how you feel duffy
