

The Faster The Treadmill (Gameboy-Only Version)

I Fight Dragons

Sun goes down
Sun comes up
Days can drown in a plastic cup
In this town, in this town Don't know how
Don't know when
Something came but it left again
And I'm down, on this town 'Cause no matter what I see
People love to disagree Every time I say what I wanna be
Someone says that's not how its gonna be
Come on baby quit your demon
Grab your things the train is leavin' Time to pick that somewhere you wanna go
Get there quick or drown in the undertow
Come on baby, time is wasting
Choose a wheel and get to racing Sun goes up
And down again
Its hard to stop feeling broken in
And worn down, by this town All the same
You find me here Placing blame and escaping fear
And self doubt, in this town But no matter where I go
People love to tell me no Every time I say what I wanna be
Someone says that's not how its gonna be
Come on baby quit your dreaming
Grab your things the train is leaving Time to pick that somewhere you wanna go
Get there quick or drown in the undertow
Come on baby time is wasting
Choose a wheel and get to racing Every time I say what I wanna be
Someone says that's not how its gonna be
Come on baby quit your dreaming
Grab your things the train is leaving If you feel like nobody understands you
Just smile and pray that they clap their hands
Come on baby drown your sorrow
Work today and live tomorrow Time to pick that somewhere you wanna go
Get there quick or drown in the undertow
Come on baby time is wasting
Choose a wheel and get to racing
