Who Am I?

I See Stars

Advisory - the following lyrics contain explicit language:

I'm living breathing proof!
I'm living breathing proof!I feel it leaving me
The earth starts to fade
The life inside of meI find myself doing all the wrong things
For all the right reasons
I hear the words you say loud and clear
I just don't give a fuck!I'm living breathing proof
That you can turn off your conscious
I'll show you the worst of me
You have me asking...Who am I?
I'm a whole lot different that I look on the outside
Let me go
Take me back to the place I know
Will I ever be the person I'm supposed to be?
I will never let goI'm living breathing proof!
I'm living breathing proof!
(Who am I?)It's safe to say there are many days
I live with no regrets
How do you sleep at night
When I'm a living nightmare?I feel it leaving me
The life inside of me!How do you sleep at night?
When I am a living nightmare
I am living nightmareWho am I?
I'm a whole lot different that I look on the outside
Let me go
Take me back to the place I know
Will I ever be the person I'm supposed to be?
I will never let go(Who am I?)
(I'm living breathing proof)
(Who am I?)Will I ever be the person I'm supposed to be?
I will never let go
(I'm living breathing proof)(Who am I?)

(Who am I?)
(I'm living breathing proof)
(Who am I?)
(Who am I?)
