Miles In Denial

The Junction

Miles in denial
Sleeps beside broken bottles
Feel free to stand around
and watch as he makes a fool of himself

But you wake me up
and make me feel,
You wake me up
and make me feel
So far from you.

Could you please get out of this place?

But you wake me up
and make me feel
You wake me up
and make me feel...

So far from you
And you're so far from me
