

# I Like the Way This Is Going (Live At KEXP)

## Eels

I like your toothy smile,  
It never fails to beguile.  
Whichever way the wind is blowing  
I like the way this is going. I like the color of your hair,  
I think we make a handsome pair.  
I can only see my love growing  
I like the way this is going I like to watch TV with you,  
There's really nothing that I would rather do.  
Then maybe we can go to bed,  
Get up and do it all again. I like the way your pants fit,  
And how you stand and how you sit,  
Whatever seeds that you're sowing,  
I like the way this is going. I don't care about the past,  
None of it was made to last,  
It's not who you've known,  
But who you're knowing, I like the way this is going  
I like the way this is going.
