

# I Regret Everything

Patti LuPone

I've lived my own life  
Win or lose  
No one's ever called the shots for me  
I put myself into these shoes  
And no one ever tied the knots for me  
Life's a banquet  
So I ate Piled experience on my plate  
Grabbed life's gleaming golden cup and drank it down  
Bottom's up  
So proudly now I turn and face the crowd  
And sing my feelings very loud  
I regret everything!  
Every moment of my life Every step that I take is another BIG Mistake!  
I regret everything there is nothing I've done right  
Summer, Winter, Fall or spring, I regret everything!  
The one good man, that got away  
My acting in the high school play  
That time at lunch, I dropped my tray My history of tooth decay  
The love I gave, one reckless night  
The pants I bought, that were too tight  
That time I ran, the traffic light  
The Chinese food I eat last night  
\*hiccup\* Pardon.  
I regret everything Every single thing I've done  
Every path that I choose only leads to more boo-boos!  
I regret everything!  
Look! My stocking has a run  
Summer, Winter, Fall or Spring I regret everything Everybody!  
I regret everything!  
Every moment of my life  
Every step that I take is another big mistake  
I regret everything!  
Wether left of right I run  
I regret to have to say  
I regret having sung this song!  
Now I have depressed you I shouldn't have come!
