

# Pig Will Not

John Parish and Polly Jean Harvey

I...

I will

I will not

I will not

No, I will not

How dare you, says the angel

He crashes down from the heights

Shakes the disbeliever

Shakes the disbelievers head

Shakes him harder

Instructing you well....

Hear me, do you hear the law?

All that rubbish inside your rotting mind

I am your guardian, I am your fairy

Get out of my way or...

Such lovers, this is true love

This is true love that we are doing now

Even everywhere that I was before, all broken

Your face all mashed up

I will not

I will not

I will not

I will not..
