More Than It Seems

Citizen Cope

Your so pure of, your heart is full of
All I ever need
And I can't take it, I can't speak
So I just sit here and stare
My adorer, let me tell you a story
With an end, someone in me
Now it's gonna be surrounding me
Break my silence
Yeah, it's a little bit more than it seems
We can make outside my dreams
Yeah, it's a little bit more than it seems
We can make outside my dreams
My adorer, they say I don't know ya
Sure do know, sure do miss ya
I can't take it, I can't take it
My adorer, your heart is full of
All I'll ever need
I can't take it, I can't speak
Break my silence
Yeah, it's a little bit more than it seems
(We can make it)
We can make outside my dreams
(We can make it)
Yeah, it's a little bit more than it seems
(We can make it)
We can make outside my dreams
Yeah, it's a little bit more than it seems
(We can make it)
We can make outside my dreams
(We can make it)
Yeah, it's a little bit more than it seems
(We can make it)
We can make outside my dreams
Outside my dreams
