

# Armistice

## Patrick Wolf

Coat of black, coat of black  
Weary waiting, weary waitingI turn out the light, we kiss goodnight  
And weary waiting  
Weary waiting to come closer  
Closer to where we belongOutside the city children brandish  
Sharp their knives  
Sharpen knives and come closer  
Closer to where we belongIf you'll be weak then I'll be strong  
When the night is long, ohTrust all the years you'll wait to find  
This man who's loved you your whole life  
So come closer  
Closer to where we belongJust close your eyes, let those foxes fight  
The children of this city sharp their knives  
Come closer  
Closer to where we belongAnd if I be weak, won't you be strong?  
When the night is longIf I'll be weak  
Chomreedhoo, chomreedhoo  
When the night is longClose your eyes, let the foxes fight  
Close your eyes  
Come closer to where we belong  
Where we belongWhen the night is long  
When the night is long
