

Superwoman

Eliane Elias

Mary wants to be a superwoman

But is that really in her head?

But I just want to live each day to love her for what she is

Mary wants to be another movie star

But is that really in her mind?

And all the things she wants to be she needs to leave behind

Very well, I believe I know you

Very well, wish that you knew me too

Very well and I think I can deal with everything going through your head

Very well and I think I can face

Very well, wish that you knew me too

Very well and I think I can cope with everything going through your head

Very well, I believe I know you

Very well, wish that you knew me too

Very well and I think I can deal with everything going through your head

Very well and I think I can face

Very well, wish that you knew me too

Very well and I think I can cope with everything going through your head

Mary wants to be a superwoman

Mary wants to be another movie star

Mary wants to be a superwoman

Mary wants to be another movie star
