# God Help Me

## Lil B

God help me, I don't see how I can live this way
And I don't know why he's touching me
Won't you shine in my direction and help me?
Won't you lend me your protection and help me?
God help me, believe me, this wasn't what I wanted
But no, I can't leave, he's got me
Won't you shine in my direction and help me?
Won't you lend me your protection and help me?
Am I guilty or am I just waiting around
For the tide to come in so the truth can come out?
And if I had a dollar for every time
I repented the sin and commit the same crime
I'd be sitting on top of the world today
I'd be sitting on top of the world today
God, God help me, just maybe I'll learn to help myself
Speak to me, don't leave me, he's burning me
Won't you shine in my direction and help me?
Won't you lend me your protection and help me?
Places everyone, this is a test

Throw your stones, do your damage, your worst
And your best, all the world is a judge
But that doesn't compare to what I do to myself when you're not there
And if I had a dollar for every time
I repented the sin and commit the same crime
I'd be sitting on top of the world today
I'd be sitting on top of the world today
Don't make me choose, I've got too much to lose
Don't make me choose, I've got too much to lose
Don't make me choose, I've got too much to lose
Don't make me choose, I've got too much to fucking lose
For I am with you and also with You
I am with you and also with You
God help me
God help me
God help me
