Picture Me

Young Breed

Picture me on a postcard
Picture me on a magazine
Call me on my private number
You've got my photograph
On your bedroom wall
Picture me
('Coz everybody wants her)
On a postcard
(She makes them smile)
Picture me
(And everybody needs her)
On a magazine
(Once in a while)
Call me
('Coz everybody wants her)
On my private number
(She makes them smile)
You've got my photograph
(And everybody needs her)
On your bedroom wall
(Once in a while)
She is wanted, she is smart
She'll make feel you special
She's got it down to an art
She don't argue, she's on time
She is available, she'll make you feel fine
She is wanted, she is smart
She'll make feel you special
She's got it down to an art
She don't argue, she's on time
She is available, she'll make you feel fine
She is wanted, she is smart
She'll make feel you special
She's got it down to an art
She don't argue, she's on time
She is available, she'll make you feel fine
Picture me
('Coz everybody wants her)
On a postcard

(She makes them smile)
Picture me
(And everybody needs her)
On a magazine
(Once in a while)
Picture me, picture me
Picture me, picture me
Picture me, picture me
Picture me
