Right Now

Hopium

How can I get this back?
I thought that we could make it
I was the best you had,
Now you're telling that you've always faked it
And it's all my fault, 'cause you've said it's all my fault
and we know you're never wrong 'cause you say you're never wrong!Is it anybody here right now?
You're not saying what I need hear right now!
You don't give a fuck about me right now!
And we could make it real, but we don't know how!
We're waiting for the smoke to clear right now,
But I'ma make one thing clear right now
I'm not just gonna let you leave right now,
I wanna hold you down but I don't know how!
Right now, right now...
I'm not just gonna let you leave right now, right now
We could make it real right now, right now.
Right now, right now...
I'm not just gonna let you leave right now, right now
We could make it real right now, right now.Of all the times you lied, and tried to cut me deeper
'Cause baby I'm dick, but you're no saint either!
Tell your friends I held you back,
I fucked right behind your back
Tell everyone I lied to you, to all the ones you're lying to.Is it anybody here right now?
You're not saying what I need hear right now!
You don't give a fuck about me right now!
And we could make it real, but we don't know how!
We're waiting for the smoke to clear right now,
But I'ma make one thing clear right now
I'm not just gonna let you leave right now,
I wanna hold you down but I don't know how!
Right now, right now...
I'm not just gonna let you leave right now, right now
We could make it real right now, right now.
Right now, right now...
I'm not just gonna let you leave right now, right now
We could make it real right now, right now.
