

I Miss That Bitch

Snoop Dogg

This one right here is dedicated to a lot of famous players out there
That might have been in love before
I know some of you might not think gangstas fall in love
I miss that bitch
But uh, it's true And if you been in love like I been in love before, you know
It's hard to get back with somebody when they're gone
I miss that bitch
It's hard to replace that special someone
When they just up and you know dip dive and so socialize And what we gon' do right here?
I miss that bitch
We gon' kick something over this HiTek beat right here
For all the players that lost somebody special
And wonder where she at
E. White kick that shit
I miss that bitch I got my eyes wide open
The whole time I'm holding on to hope with you on my mind
It's been a while child, I'm getting down with Dogg
I bet my name all around your wall Perhaps I went to jail that left us out of touch
Shoulda shot some mail or something
Ain't no telling where she at now
I be goddamn, baby, I really wanna see what you got now I'm all grown up with my shit together
I don't know if I'ma see you ever
I got a woman and shit but I must admit this
You at the top of my list Unforgettable, fuck with them niggas do
I still miss and there ain't no getting rid of you
But in the mean time I'ma get with cha
Until I get somebody with your hook up I'ma hit ya I miss that bitch
She was a pot of gold, her body was cold
I don't know where you went? Where did you go?
I miss that bitch Shopping around looking around
I'm tryin' to see, where could you be?
How could you do this to me?
I miss that bitch My momma got mad, I was young when I hooked up with her
One hit and I couldn't stop tripping
A long lasting relationship
Pass you around and let my niggas take a hit I used to break you down just to roll you up
You the real, you never will slow me up
And you was always on my mind
Say no more, I still miss you at times All of a sudden you lost my interest

I packed it up and set about my business
You used to have a hold on me
Sometimes to the point that they said you controlled me I kept going to jail and all that
Get out, fuck with you again, I'm right back
I guess I had to learn the hard way baby
I'm leaving you alone 'cause you driving me crazy I miss that bitch
She was a pot of gold, her body was cold
I don't know where you went? Where did you go?
I miss that bitch Shopping around, looking around
I'm tryin' to see, where could you be?
How could you do this to me?
I miss that bitch Oh, Mary, Mary, Mary, quite contrary
I thought you'll go [Incomprehensible]
Oh, every time I think about that girl
Make a nigga wanna have a wet dream
Release some steam, oh, oh, oh
I miss that bitch
