Find Our Way

Our Lady Peace

Hang me up to dry with your clothes
Drink away the fear in my bones
Save me from this ugly landfill
Sun will scare away this winter chill
We love before we hate
And bend before we break

Talk before we'll [unverified]
And walk before we'll run
Find our way home again
Lead me to your watering hole
Watch me clean and fix what I got broke
Leave me like a drifter out at sea
Tangled like my father's rosary
