Strong Man (jeff In C Minor)

Kelly Price

When I was a baby girl, mama put in me
You can be anything that you wanna be
Now, that I'm older and I'm much bolder
A time or two love has walked out on me
I don't know why, guess it was the wrong guy
And he didn't fit into my destiny
But that's alright and that's okay
'Cause I got someone who will love me anyway
Strong man, got me a strong man
Real man, got me a real man
Good man, got me a good man
He's my man, glad that he's my man
So, listen while I talk about it
I worked too hard to remind me
That God gave His best when He created me
Many lonely nights and many teary eyes
'Cause how would it be me they refuse to be with
I don't know why, guess it was the wrong guy
And he didn't fit in to my destiny
But I'm alright y'all and that's okay y'all

'Cause I got a man who loves me any, any, anyway
Strong man, got me a strong man
Real man, got me a real man
Good man, got me a good man
He's my man, glad that he's my man
I found someone, he builds me up
He gives good love
I found somebody, body
Who knows my body, body
He loves this smile of mine
Strong man, got me a strong man
Real man, got me a real man
Good man, got me a good man
He's my man, glad that he's my man
Strong man, got me a strong man
Real man, got me a real man
Good man, got me a good man
He's my man, glad that he's my man
