Shout
What's up ya'll?
(Hmm)
(Oww)
It's Left Eye on the track
(Hmm)
(Oww)
My girl T-Boz over to my left
(Hmm)
(Oww)
Chilli is on my right
(Hmm)
(Yeah)
We're gonna teach ya'll to shout
(Hmm)
(Unhh)
(Hmm)
Check it out
(Oww, yeah)
(Hmm)
What's up?
(Hmm)
What's up?
Shout
(Ooh)
Same damn time every hurt or two
Something can happen to put me in your mood
Keep it inside till I turn dark blue
Trash everything I ever gave to you
Brought it on the front of your lexus coupe
Didn't want to leave you with a lame excuse
Sex so good turns love to abuse
When you wanna leave love's got you in a noose
It's not just when I'm in bed
Sometimes I'm so frustrated
I keep it all in my head
Till I just can't take it no more
It's not just when I get mad
Sometimes it's 'cuz I'm so glad

That you are near me now
I just have to get it out
Shout
(Hmm)
You gotta let me get it out
(Hmm)
You gotta let it go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
Shout!
You gotta let me get it out
(Hmm)
The feeling won't go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
Shout!
Found somethin' in your pocket
And I don't know why?
I didn't say nothing' just sat and cried
Got me twisted all out inside
Not too long before the next ride
Over and over and over again
Instead of lettin' out I always let it in
This is where the confusion begins
'Cuz if it don't make me you don't win
It's not just when I'm in bed
Sometimes it's so frustratin'
I keep it all in my head
Till I just can't take it no more
It's not just when I get mad
Sometimes it's 'cuz I'm so glad
That you are near me now
I just have to get it out
Shout
(Aaa)
(Hmm)
You gotta let me get it out
(Oh yeah)
(Hmm)
You gotta let it go away
(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

Shout!

(Shout!)

You gotta let me get it out

(Aaa)

(Hmm)

The feeling won't go away

(Go away)

(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

Shout

Baby just tell me what you wanna do

I can't help bein' in love with you

'Cuz sometimes I need you to turn me out

'Cuz that's what lovin' is all about

(Shout)

Baby just tell me what you wanna do

I can't help bein' in love with you

'Cuz sometimes I need you to turn me out

'Cuz that's what lovin' is all about

(Yeah)

(Shout)

Check it

I knew that it was only time

Before my rhymes

Would dig into my mind

And get crazy out of line

I do my best

To never disrespect

My girls from TLC

All my friends don't let me

Speak my love and peace

It's all about

In this world with a doubt

Is you down for the count

Do your hoes still amount

To the price that we pay

To remain up in this crucial game

Call it a test

A game of chess

Let's play

Me and you one on one
(Hmm)
Breakin the ice
Till the water runs
(Hmm)
Down my face like a chase
Now do you hear the guns
(Hmm)
Here I come and won't quit
Until the job is done
(Hmm)
Quiet storms will inform you
That I've just begun
(Hmm)
Tippin' the spot till it's hot
If you want what I got
(Hmm)
See me down to the dot dot com
And keep it comin' with your best shot
(Hmm)
If you're short I care alot
And let's not
Shout
(Hmm)
You gotta let me get it out
(You gotta let me get it out, yeah)
(Hmm)
You gotta let it go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
(Feel like you make me shout)
Shout!
You gotta let me get it out
(Yea yea ohh)
(Hmm)
The feeling won't go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
Shout
Shout
(Ohh oh oh oh oh oh oh oh oh ohh)

(Hmm)
You gotta let me get it out
(Hmm)
You gotta let it go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
Shout
(Ohh oh oh oh oh oh oh oh ohh)
You gotta let me get it out
(Hmm)
The feeling won't go away
(Hmm)
Don't wanna spend another day
(Hmm)
Unless I feel like you make me
Shout
