

What's In Your Mind?

Coal Chamber

Advisory - the following lyrics contain explicit language:

Creature, do the ones you hurt
Come into the dreams
Your schemes of ripping
These lives apart who screwed you For me it's the love of chase
For me it's can't create
If it's simply covered
Say to one another What's in your mind, in your mind
In your mind that tells you?
What's in your mind, in your mind
In your mind that tells you? Sadness speaks
So softly so gently
We move through
As if eloquently
Show remorse Installment of what is left
Installment of what is true
If it's simply covered
Say to one another What's in your mind, in your mind
In your mind that tells you?
What's in your mind, in your mind
In your mind that tells you? In your mind, in your head
That makes you do this too
In your head, in your filthy
In your head of this mind In my mind, in my head
Makes me do what I do
In your minds, in your head
That makes you do this too Creature, do the ones you hurt
Come into the dreams
Your schemes of ripping
These lives apart who screwed you For me it's the love of chase
For me it's can't create
If it's simply covered
Say to one another What's in your mind, in your mind

In your mind that tells you?
What's in your mind, in your mind
In your mind that tells you?What's in your fuckin' head?
