

# Lost Boy

Relient K

You had a baby you were seventeen years old  
I was on the road trying to make it my home  
You had a man but he wasn't no good to ya  
I was with women I didn't know Foot loose, fancy free  
Pretty lady won't you dance with me  
'Cause one look from your eyes  
And I knew that it was right this time Before you came around  
I couldn't figure out  
Where I was going  
I was wandering wandering wandering around  
Before I found my way  
I was running like a stray And I was a lost boy  
Just a lost boy  
Before you came around Sweet country baby you were singing at the airport  
Raking in tips with the heel of your boot  
I must have passed you by a hundred times before  
Cupid saw it fit to let me dance with you Foot loose, fancy free  
Pretty lady won't you dance with me  
'Cause one look from your eyes and  
I knew that it was right this time Before you came around  
I couldn't figure out  
Where I was going  
I was wandering wandering wandering around  
Before I found my way  
I was running like a stray And I was a lost boy  
Just a lost boy  
Before you came around  
I was a lost boy  
Just a lost boy Before you came around  
I couldn't figure out  
Where I was going  
I was wandering wandering wandering around  
Before I found my way  
I was running like a stray And I was a lost boy  
Just a lost boy Before you came around  
Before you came around  
Before you came around
