Straight to Hell

Raunchy

This city we ride like devils in the night
Harlots and dragons, crowns and thorns
This city we ride with hell hounds by our side
We thrash to live, we live to thrashLet's go the only way we know
You don't stay, Straight to HellSave me 'cause the hounds of hell do biteThere's nothing left to reconcile
A mirror desire is a mirror on fireThis game we play like demons in a parade
Now we ride a fucking charade
Thirty sharks, sixty wolves and a fat lady in red
Before the night is over we are fucking deadLet's go the only way we know
You don't stay, Straight to HellSave me 'cause the hounds of hell do biteThere's nothing left to reconcile
A mirror desire is a mirror on fireLet all hell break loose
In a Crystal Lake scenery
Come dance with me
My miseryThere's nothing left
We're going straight to Hell
