

# Loch Raven

## Animal Collective

I will not give up on you)  
Cute on the head  
But come walk with me  
Leave your broom, make friends  
Come up to this apartment with me  
Your soft feet will melt  
They walked so far, jumped work in streets  
They need to feel some furs  
Come up to my den with me  
(Wait, shoot straight)  
A feeling  
Always be my friend  
Gonna gonna chase you  
A feeling  
A sleeping friend  
Gonna gonna chase you  
A feeling  
Always be my friend  
Gonna gonna chase you  
A feeling  
A sleeping friend  
Gonna gonna chase you  
Cute on the head  
But come walk with me  
Leave your broom, make friends  
Come up to the apartment with me  
A feeling  
Always be my friend  
  
Gonna gonna chase you  
A feeling  
A sleeping friend  
Gonna gonna chase you  
A feeling  
Always be my friend  
Gonna gonna chase you  
A feeling  
A sleeping friend  
Gonna gonna chase you

Cure that bug  
Go walk with me  
Leave your wounding girl  
Come undo the love with me  
You're some feet above her  
There walks some far-fetched work in the street  
They need to feel so firm  
Come undo my death with me  
We all feel lonely  
Ooh ooh  
Ooh, ooh-ooh, ooh  
Cure that bug  
Go walk with me  
Leave your wounding girl  
Come undo the love with me  
She said, We'll all feel. All together.  
All feel. All together.  
All feel. All together.
