

# Truck Got Stuck

## Corb Lund

The Chev got stuck  
and the Ford got stuck,  
got the Chev unstuck  
when the Dodge showed up,  
but the Dodge got stuck  
in the tractor rut  
which eventually pulled out the Ford!  
(Were some difficulty)  
For morerain that would seem  
for a thousand years,  
cause finantial joys and bibical fears  
it cause some smiles,  
it cause some tears,  
but more to the point of out story  
For the first time  
in the collective memory,  
that old brown prairie  
that had been soo dry for so long  
was VERY muddy.  
Boggy! Sticky!  
We'd pull one truck out  
and get another  
stuck in,  
and motors would roar,  
and tires would spin,  
we'd sink right down,  
down to the diff,  
and we'd all take turns,  
and do it again until  
nobody could move  
we'd call one more friend  
come on out here we need ya.  
Bring your truck. Hyya!  
The Chev got stuck  
and the Ford got stuck,  
got the Chev unstuck  
when the Dodge showed up  
but the Dodge got stuck  
in the tractor rut,

which eventually pulled out the Ford!  
(And the Dodge equal opportunity)  
For got me stuck in the mud  
it was good to rehhearse  
In Chav-Ez 2 as the misties work.  
Reggie, he now fears the work,  
he stood up his ex-wife  
she called him a jerk  
Except Hoping didn't have  
nothing better to do. (Except ranch!)  
The Chev got stuck  
and the Ford got stuck  
got the Chev unstuck  
when the Dodge showed up  
but the Dodge got stuck in the Tractor rut  
which eventually pulled out the Ford!  
Well it was truck after truck we all got stuck  
Except the big ol' 4-by huttery truck  
We all thought loada wee in luck!  
but he wouldn't come in he wouldn't her us!  
Mighty neighborly...mighty neighborly.  
We used alot of our backs and a little of our brains  
we jacked up the jacks  
and snugged up the chains.  
We all did our very best to refrain from shoveling.  
We put what timber we had  
underneath the wheels!  
And we was all out of sand  
in the mannest to steal  
the biggest can o' oil ye' ever did see.  
Agriculture Canada is definately gonna be looking for us!
