

Night Sky

[Joe Modifica](#)

Every time I see you
Like a bright night sky
So vast and open
Open oh so wideOoh Shattered darkness
Without a sound
Every time
Whenever you're around(prechorus) I want to hold you
In my arms
Such a star you are
Ooh then you're gone(chorus) Night Sky - forever rise
Night Sky my one desireEach night I wait for you
With a cosmic view
This blanket of wonder
Surrounding youprechorus
chorus
