

What Is Success

Bonnie Raitt

How does one decide that the methods he's using, they just don't jive
Truly believe and, and trying over and over again
Living in hopes, that someday you'll be in with the winners When should one change his mind and jump the
fence for the dollar sign
It's a sad thing, it's a bad thing, but so necessary
In this cold world force your values to become monetary
It ain't necessary Ooh, tell me what it is
Success
Ooh, tell me what it is
Sweet success Now what, what
I don't know, can you tell me what
What is success?
Is it do your own thing? Or to join the rest
Or should you truly believe or keep trying over and over again
Living in hopes, that someday you'll be in with the winners Ooh, tell me what it is
Success
Ooh, tell me what it is
Sweet success Ooh, tell me what it is
Success
Ooh, tell me what it is
Sweet success
Ooh, tell me what it is
