

The Real Thing (Live In Manchester)

[Lisa Stansfield](#)

Never mind the stars in the sky
Never mind the when and the why
Got a feeling higher than high
This is the real thing No more living in shame
And I'm not gonna run or gonna hide away
No more telling all those lies
It's been too long No more living in chains
No, I don't give a damn whet the people say
There's no use holding back desire
We've burnt our fingers now lets jump into the flames [Chorus]
Never mind the stars in the sky
Never mind the when and the why
Got a feeling higher than high
This is the real thing
Never mind the rain and the storm
We'll keep each other warm
We got something stronger than strong
This is the real thing Gonna walk out hand in hand
So let them criticise 'cause they don't understand
We've got nothing to hide
It's just love I've had enough of shy
So let's go out and show them what we have inside
There's no use holding back desire
We've burnt our fingers now let's jump into tho fire [Chorus] Never mind the stars in the sky baby
Never mind the when and the why baby
Never mind the stars in the sky baby
'cause I've got a feeling that's higher than high Oh, what you do to me, baby
Oh, what you do to me, baby This is the real thing [Chorus] Never mind the stars in the sky baby
Never mind the when and the why baby
Never mind the stars in the sky baby
'cause I've got a feeling that's higher than high [Chorus]
