

Make It Big (feat. Khrysis)

9th Wonder

[Featuring: Featuring: Khrysis] Man you know, I think we decide our own legacy. Be honest with you, when you leave the game or you leave this earth, people will decide a legacy for you. We're just here to do what we're supposed to do. Everybody else will decide what was your legacy, he was there he was that, he did this he did that. People will decide that for you. You have no control over it

Young Christ is the rebel

I get down do my dance on instrumentals
The blast at me slamming on cast like heavy metal
Don't try this at home kids get on my level
We don't ever ever settle
White niggers trapped at the station broke back fuckers
Ain't got time for them suckers
I work too hard
You wanna take mine
Well . Hardy ha ha
In your dreams this ain't easy as it seems
But doing this just to tease you
You can say it's in the jeans
Uncle running sax granny is singing in the opera
Rest in peace Uncle Mark torn with the cops
Group Daddy started he was living out his dream
Then he passed it on to me and I told him I'm a make it big
Said I'm a make it big
Christ is in the booth and I I'm a make it big
Manic on a tranic and said make it big
Yeah nigger I'm a make it big come on
I'm a make it big
Yeah I'm make it big
Big boy showing style get a pancake
Serve type sweet on the beast I made that
Yo'know what I'm saying here yo pimp its Trex
The J start spitting and I was like Yes

Ain't she the reason and then the game over
Over sees international brochure to R Kelly and J got your off
Giga man stayed and J got kicked off

The very next year I'm on the break through
Thank you ninth wonder she said I owe you to
Good women down win a Grammy nigger ohhhh
