

Look At You

Kenny Rogers

Look at you shining like a diamond in a velvet blouse
oh look at you, when i looked at you
It's a wonder why heaven ever gave you up
all i want to do is look at you
You are the woman that I waited for
the only one I see
I could live a million years or more
and not explain this beautiful pain i go through when i look at you
Look at me, a man at the mercy of a heart on
fire
Would you look at me?, helplessly
stunning like a drum full of pure desire
Cant you see?, how desperately
I want to take you in there arms of mine
and never let you go
taste your kiss till the end of time
maybe after then, yeah after then
i will be happy too
Oh just look at you
You are the woman that i waited for
the only one i see
I could live a million years or more
and not explain this beautiful pain i go through when i look at you
