Best Song Ever

onedirection

Drivin' through town and I heard this song
Be comin' back and I won't be long
Broke my heart and made me cry
But according to the song I'm gonna be alrightYeah, you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend, kill my innocence, you're gonna love me forever
According to the song, according to the best song everPretty sure you're gonna say sorry
'Cause the second verse said I don't have to worry
You're lost without me and I've got proof
This pretty melody is tellin' me the truthYeah, you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend, kill my innocence, you're gonna love me forever
According to the song, according to the best song everAnd I know how it goes, whoa
I'm not crazy
You still want me, don't you, baby?
Whoa, whoa, whoaI'm on my way 'cause I want you to hear
This love song's gonna dry your tears
I know inside you want me back
Now our perfect love's got a perfect soundtrackYeah, you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend, kill my innocence, you're gonna love me forever
According to the song, according to the best song everBest song ever
Yeah, it's the best song ever
According to the song
According to the best song ever
