Yo hit the switch in December, I'll be on till November
Bombin', disturbin' the calm at civic centers
Make a smoothie outta rapper and his ice in my blender
Beyond the fender bender, dilated-swollen members
Independent money makin', no time for waitin'
Rakka stimulin', designed for penetratin'
Nuttin' to prove, air sea and land mover
Crescent heights, Cali up north to Vancouver
Molecular monitors censors an anaconda that harbors
A feeling for heat and armor and eating a snake charmer
Capital break, wrap it in tape the cidic images
Stand up and when I twist the lid off of a silver cylinder
Crash the vehicular, makes a riveting statement
Prior engagement escape this electric engagement
Select the vegenance surraying for the four-blade tango
Enough voltage in my panel to constantly change the channel
Yo I came here to change the whole sound of art
And let 'em know it all comes down to art
The mission now is ripped the whole town apart
Wit my colleagues, my teammates, my counter parts
Yo I came here to change the whole sound of art
And let 'em know a new cycle is bound to start
The mission now is ripped the whole town apart
Wit my colleagues, my teammates, my counter parts
Yo, some pay no mind, man, I put time in so play this
You live on the edge, I live on the San Andreas
In range of clear and present danger
Can't even trust my shadow, every day it's lookin' stranger
In ten years you'll find me on the low
Full-bearded serpico wit flows yo
Coolin' in the cut crevice, underground tavern
Wit wifey and seed still on point like a javelin
Mad child twists and turns like an Indian burn
Wit powerful jaws and character flaws
Rippin' and tearin' wit claws kill if I'm aware of the cause

Not to mention, knuckles white from inner tension
Witch doctors and war chiefs approaching
Fantastic adventures, a frightening fortune
Scorpion tail snaps, constrictor strangles
SNM rocks, Dilated works the angles
Yo I came here to change the whole sound of art
And let 'em know a new cycle is bound to start
The mission now is ripped the whole town apart

Wit my colleagues, my teammates, my counter parts
Galvanize steel grate, I tell you're quite well made
I trust you're rush into an open blade of rust
Hands to ribbons, is in a beat box of must
Crimson wordplay prevail, the narrator from the doorway
My partners in this, have gotta be clearly obvious
Known for superior form of smoke inhalation from spoken incineration
Omens of Damien reignin' in present new haven
Now ain't that amazing?
Yo I'm inspired and wired that time will be attractive
Not tired I've fired volcanoes still in active
The unibomber! Causin' drama or terror, it's fabulous
I'll bounce to the arting wit a backpack full of travelers
Checks to burn, stay warm for the brain storm 'cuz in my snow storm
I freeze if I don't sleep below the ice for my blanket
Thank earth for its hidden treasures
And now I'm takin' drastic measures
Yo I came here to change the whole sound of art
And let 'em know a new cycle is bound to start
The mission now is rip the whole town apart
Wit my colleagues, my teammates, my counter parts
Indulge in this intrusion underworld defender
Horrendous snowball of absolute insanest
Riskin' freedom to be famous
When nothin' remains except passion and pain
No slashin' the vein, to bleed and drown in a bath
Fall down and I laugh, get up wipe myself off
And walk down a new path I'm intact, you can't handle the impact
In sync, blazing wit killer instinct
Aiiyo I excel, they all fell new details, mad child prevail
I remove the veil, manifest god self
As the life-giving son, iriscience brings twelve
Like Buckingham Palace to British Columbia
Three states under ya, I deal wit district of Columbia
Understand the numbers and the system that you're under
And why them belly full but we keep 'em feelin' hunger
