Face of Death (Blind Rage Mix)

Suicide Commando

Face death of an innocent young girl
We face death of an innocent child
Cold blood, put to death without meaning
We don't care because we think we are godBlind rage, black evil
The last betrayal of our own flesh and blood
Wake up, stop screaming
We sell our soul and we kill our own godFace death of a whole generation
We face death of the human kind
Face death of a whole generation
We face death of the weak and the blindSlow death of a man killed in blind rage
Slow death of the human race
Tormented bodies castaway in a black cage
Tormented bodies castaway in a cageBlind rage, black evil
The last betrayal of our own flesh and blood
Wake up, stop screaming
We sell our soul and we kill our own godFace death of a whole generation
We face death of the human kind
Face death of a whole generation
We face death of the weak and the blind
