

# She Cries

## Pyogenesis

[Music & Lyrics: Flo V. Schwarz] Too much anger, too much argue

That seems not ok

I don't see a need to change my mind

so tell me how about you

It has to be over - no need for a lie

It has to be over - let's say good bye

It has to be over - even if she cries

How much longer you want to go on

some things never change

I don't want, I don't need, I don't see a way out

We won't rearrange

It has to be over - no need for a lie

It has to be over - let's say good bye

It has to be over - even if she cries
