#27

Marvelous 3

She got the #27
Taken off her license plate
'Cause that was my basketball number
Back when we started to date
And I know, it's better to be unfaithful
To the people that you liked last yearYou're still the same
You'll never change
Always a change
You're still the sameShe's got a pretty mod cd collection
In the glovebox of her car
All the Blur, and The Cure, and Oasis cases
Tell me you get struck by stars
And I know, it's better to be unfaithful
To the things that you liked last yearYou're still the same
You'll never change
Always a change
You're still the sameI can't run, I can't hide, this ain't no Marco Polo
You've gone and give yourself away
And all this time, I just thought that I was crazyYou're still the same
You'll never change
Always a change
You're still the same
