Church In These Streets

Jeezy

Where my street disciples, church off in these streets
Call my congregation, church off in these streets
Call me Pastor Young, I came to spread the word
Spread the word like my partner spray them birds
You gettin' how you livin', just say hallelujah
You out here and you poppin', best to have you a shooter
I said and I meant it so you know indeed
I came to spread the word, church off in these streetsHeard he took a unit, broke it down to singles
Break them one by one just like them bitches Pringles
Heard he lost it all and then he got it back
(?) them folks a (?) that's why I got a tax
I'm in this bitch, I'm feelin' like a million dollars
Okay I'm loungin' (?) show a million dollars
The first around the corner got a nigga stressed
Just hope he send a blessin' in my directionWhere my street disciples, church off in these streets
Call my congregation, church off in these streets
Call me Pastor Young, I came to spread the word
Spread the word like my partner spray them birds
You gettin' how you livin', just say hallelujah
You out here and you poppin', best to have you a shooter
I said and I meant it so you know indeed
I came to spread the word, church off in these streetsMy nigga got a plug and then he got indicted
Saw him in that foreign thing then got excited
Graduated from the streets and I ain't have a tutor
If you see another day then just say hallelujah
Ain't no fuckin' secret, know I came from nothin'
Told myself that I'mma go and grind for somethin'
Hustle 'cause I gotta splurge when I can
Just know you lookin' at a God fearin' manWhere my street disciples, church off in these streets
Call my congregation, church off in these streets
Call me Pastor Young, I came to spread the word
Spread the word like my partner spray them birds
You gettin' how you livin', just say hallelujah
You out here and you poppin', best to have you a shooter
I said and I meant it so you know indeed
I came to spread the word, church off in these streets
