

Weather Girl

Mario

Oh

Ohh

Yeah

Yeah

Oh, yeah, yeah

The sun is gone, babe

No more warm days

It's kind of crazy

When I think of some

Of the memory

Taking trips with you

When we needed time

Though I was busy

But I'm not having you

In my life

We were closer than ever (ever)

You were as sexy as the day that I met you (I met you yeah)

We were closer than ever (ever)

I used to think that we'd always be together

In the weather

I swear the thunder came

And brought the rain

Then the lightning struck

Babe, we were never the same

(never the same)

I should've seen the signs

Way in the sky

But I was blind

Oh now I realise

You brought the weather, girl

You are the weather, girl

You brought the weather, girl

Tell me the weather, girl

Girl, you brought the storm

You are doing me wrong

And now I'm sitting in the rain

Writing you this song

Colder than the frost

Girl, you left me lost

I'm tryin' to live my life (cause)
How I'm supposed to turn this on?
We were closer than ever (ever yeah)
You were as sexy as the day that I met you (I met you baby)
We were closer than ever (den ever)
I used to think that we'd always be together
In the weather
I swear the thunder came
And brought the rain
Then the lightning struck

Babe, we were never the same
(never the same)
I should've seen the signs
Way in the sky
But I was blind
Oh now I realise
You brought the weather, girl
You are the weather, girl
You brought the weather, girl
Tell me the weather, girl
Tell me the weather, baby
Girl, you brought the storm
Girl, you brought the storm
You brought that hurricane
I never thought you'd do me wrong (never do me wrong)
Girl, you brought the storm (yeah)
Girl, you brought the storm (ohh)
You brought that hurricane
I never thought you'd do me wrong
Baby, don't lie (baby)
Baby, don't cheat (hey)
In my mind, it's broken, girl
Imma do me
Baby, don't lie
Baby, don't cheat
Weather girl, whether or not
Imma do me
Ohhh, Ohhh, baby
I swear the thunder came
And brought the rain
Then the lightning struck
Babe, we were never the same
(Never the same)
I should've seen the signs

Way in the sky
But I was blind
Oh now I realise
You brought the weather, girl
You are the weather, girl (you know it)
You brought the weather, girl
Tell me the weather, girl
You brought the weather, girl (girl, girl)
You are the weather, girl (girl, girl)
You brought the weather, girl (girl, girl)
Tell me the weather, girl (girl, girl)
Oh baby
You brought the weather, girl
Oh baby
You are the weather girl
