

Lights, Camera, Action

New Kids On The Block

Hey girl, do you love me? Yes
Well, I wanna try somethin? with you so don't be shy
Are you ready? Of course baby
Let's go
You go hit the lights I'll set up the camera
Let?s get to the action
You go hit the lights I'll set up the camera
Let?s get to the action
I've been thinkin' ?bout this for some time
I got a freaky temptation burnin? deep inside
You see the scripts already wrote
The bedroom is a set
I hope you know your lines
'Cause one take is all we get
Now hit the lights I'll set up the camera
Let?s get to the action
You go hit the lights I'll set up the camera
Let?s get to the action
By the time this is over
Girl, I'ma make you a star
You ready?
1, 2, 3, 4
Directin' and producin'
And you're the leadin? lady of my show
You're the leadin? lady baby
No body double needed 'cause I do all the stunts on my own
Believe that
That you can turn your phone off
Be quiet on the set
You'd better know your lines
'Cause one take is all we get
You go hit the lights I'll set up the camera
Let?s get to the action
You go hit the lights I'll set up the camera
Let?s get to the action
You go hit the lights I'll set up the camera
Let?s get to the action
You go hit the lights I'll set up the camera
Let?s get to the action

We goin' rewind, go one more time
And playback our love on the wide screen
Baby don't stop until I say cut
Camera's off, camera's out, keep it rollin'
Keep it rollin', keep it rollin', keep it rollin'
Roll, roll, roll, roll, roll, roll, roll
Roll, roll, roll, roll
Roll, roll, roll, roll, roll, roll
Roll, roll, roll, roll
Roll, roll, roll, roll, roll, roll, roll
