Absence of Light

Common Children

For maybe just a second
The sun was in your eyes
It flickered like a spark from
The fire that burns insideYou were broken by the darkness
By the silence of the night
Searching for a shelter
From the cold absence of lightGoing on and on
And on and on you go
Going on and on
And on and on you goIt's gonna be okay
Just a little longer
You will find your way
Just a little bit longer
