Ever

Joya

You make that dance look so new
And I'm on a face like you've never seen
I'm yours tonight
So come onLight up the stage
So we can all take off anywhere
We'll never come back everYou wear that cast so cool
And I'm on a face like you've never seen
Before around
So come onLight up the stage
So we can all take off anywhere
We'll never come back everRight on the stage
You picture all of us everywhere
We'll never come back ever
