

# Ever

## Joya

You make that dance look so new  
And I'm on a face like you've never seen  
I'm yours tonight  
So come onLight up the stage  
So we can all take off anywhere  
We'll never come back everYou wear that cast so cool  
And I'm on a face like you've never seen  
Before around  
So come onLight up the stage  
So we can all take off anywhere  
We'll never come back everRight on the stage  
You picture all of us everywhere  
We'll never come back ever
