

# I'm Her Slave

## The Afghan Whigs

"Get off that stuff", she said  
"And I'll stone you instead"  
"Unchain yourself", said she  
"And tie yourself to me" We I'm on the floor, I play with knives  
You can call and ask your wife  
She's been over once or twice  
Likes to use me And I'm her slave  
But I don't need, no chain  
I'll behave Give me more of what I've come to expect  
Wrap your love around my neck  
Understand me when I say  
You'll deny me And I'm her slave  
But I don't need no chain  
I'm her slave Get me down with my head up high  
May your barrel shift that  
All my worries shift by  
My love I'm her slave  
I'm her slave  
I'm her slave  
I'm her slave
