

# Marathon Man

## The Icarus Line

Twenty years with my brain in a book  
Tryin' to find out who I am  
Endless nights and Olympian dreams  
Of a race I never ran Someone's callin' my name  
It's the crowd in the stands  
Don't know how I became  
What I suddenly am Marathon man, keep a runnin'  
Marathon man, keep a runnin'  
I've been searchin' so long  
But the answer is finally at hand  
I'm a marathon man Wind is gone and my head's in a haze  
But I must keep up the pace  
Got to think about strategy here  
If I hope to win the race Someone's callin' my name  
It's the crowd in the stands  
Concentrate on the pain  
Put my soul in command Marathon man, keep a runnin'  
Marathon man, keep a runnin'  
I've been searchin' so long  
But the answer is finally at hand  
I'm a marathon man Wasting my youth  
Chasing dreams, testing truth  
Taking turns being deceived  
And deceivin' Bound with a rope  
Made of heroes and hope  
Till I found nothin' left  
To believe in Marathon man, keep a runnin'  
Marathon man, keep a runnin'  
I've been searchin' so long  
But the answer is finally at hand  
I'm a marathon man
