

# Don't Try This At Home

## Punchline

you take your time getting ready  
it's a one way road to home  
i cant find any of my old friends  
so tell me where did they all go  
and we can live with my parents  
its not much but its a start  
if this bump in the road was a tv series  
then i would be the star  
i would be the brightest  
kid with out a clue  
making up the rules as i go along  
because they make it seem so easy  
on tv but believe me  
don't try this at home  
now back to my reality show  
shots fired we blew a tire out  
just as it started to rain  
yeah the backseats a dream  
when your just 18  
but the dream take the back seat so fast  
i still look back and wonder  
kid without a clue  
making up the rules as i go along  
because they make it seem so easy  
on tv but believe me  
don't try this at home  
now back to my reality show  
i'm sorry life isn't perfect  
but i promise we wont starve  
small dark apartment  
with big bright hearts  
kid with out a clue  
making up the rules as i go along  
kid without a clue  
kid without a clue  
because they make it seem so easy  
on tv but believe me  
don't try this at home  
now back to my reality

kid without a clue yeah yeah yeah  
making up the rules as we go along  
because they make it seem so easy  
on tv but believe me  
don't try this at home  
don't try this at home
