

# Us Against The World

Christina Milian

If the sun shuts down and decided not to shine no more  
I would still have you, baby  
If we see the last day and they say we gotta go to war  
I'll be fighting with you, baby  
Cuz I know if I'm falling, you won't let me hit the ground  
If the boat is sinking, I know you won't let me drown

No matter what anyone could say  
This is the only place for me  
And no one could ever take that away  
Nothing could come between us

If the sun shuts down and decided not to shine no more (No more)  
I would still have you, you, you ,you, you, you, you  
If we see the last day and they say we gotta go to war (To War)  
I'll be fighting with you, you, you ,you, you  
Because it's us against the world  
The world, the world  
You know it's us against the world  
The world, the world, ohh

Now if I'm lost at sea 7 days I'm not alone  
If I'm holding you, you, you, you, you  
And if it all end's; everybody in the world is gone  
I'll be standing with you, baby

And if it's the last breath I take  
I'll leave my kiss my with you  
If there's a wall between us, baby  
I know I'll break through

No matter what anyone could say  
This is the only place for me  
And no one could ever take that away  
Nothing could come between us

If the sun shuts down and decided not to shine no more (No more)  
I would still have you, you, you ,you, you, you, you  
If we see the last day and they say we gotta go to war (To War)  
I'll be fighting with you, you, you ,you, you

Because it's us against the world

Nothing's stronger now than you and I

Cuz your love is all I got

And this ain't never gon' stop

No, whoa

There's no distance here when we're apart

Come on in from the cold

Lay your head on my shoulder

Ride like a soldier

I'ma stay right here

If the sun shuts down and decided not to shine no more (No more)

I would still have you, you, you ,you, you, you, you

If we see the last day and they say we gotta go to war (To War)

I'll be fighting with you, you, you ,you, you

Because it's us against the world

The world, the world

You know it's us against the world

The world, the world, ohh (Repeat)
