

# I Wish You Loved Me

[Tynisha Keli](#)

Somethin, somethin as simple as me hearin' your name (hearin' your name)  
Puts me, puts me in a place that i can't even explain (uh oh, noO i ain't never been here before)  
I really didn't know back then but right now I'm totally sure  
Baby, i know I'm your friend but i wanna be much more (o0oh)I get butterflies when i see you comin', o0o boy  
you got me runnin'

This feelin' in my stomach tells me i should be your woman  
Because your the only one who makes my fairy tale come trueCHORUS:  
How can someone make me so sad, but still i only want them to stay  
I wanna say i love you so bad, but i don't wanna scare you away  
Please, i wish that you'll understand that i wanna be more than just your friend  
I wish you loved meVERSE TWO:

I see, i see you talkin' to them girls on the phone  
I wish that i could tell them all to leave you alone  
Really didn't know back then, but right now I'm totally sure  
Wh0aa who0 that i wanna be much moreBoy this is why, i never really liked your girlfriends (why)  
Never really gave them a chance (why)

Because I realized that I'm your woman, your womanCHORUS:  
How can someone make me so sad, but still i only want them to stay  
I wanna say i love you so bad, but i don't wanna scare you away  
Please, i wish that you'll understand that i wanna be more than just your friend  
I wish you loved meBRIDGE:

Said if you really love somebody, i mean really really really, really love somebody  
Let me hear you say yeah, let me hear you say yeah, yeahh  
If you really know you need them, and you know deep down you never gonna leave them  
Let me hear you say yeah yeah, hear you say yeah yeahCHORUS:  
How can someone make me so sad, but still i only want them to stay  
I wanna say i love you so bad, but i don't wanna scare you away  
Please, i wish that you'll understand that i wanna be more than just your friend  
I wish you loved me [2x]
