My Life

Sick Of It All

Go to work, go to school
Get an education, so you wonç£˜ be a fool
Be a doctor, PHD, all that shit, that's not for meAll my life people tell what to say
This is my life live it my own wayWas so blind could not see
figures of authortity, always standing behind me,
ready to come down on meAll my life people tell what to say
This is my life live it my own way
