

My Life

Sick Of It All

Go to work, go to school
Get an education, so you won't be a fool
Be a doctor, PHD, all that shit, that's not for me
All my life people tell what to say
This is my life live it my own way
Was so blind could not see
figures of authority, always standing behind me,
ready to come down on me
All my life people tell what to say
This is my life live it my own way
