

Freedom Dance (get Free!)

Vanessa Williams

Far away oh freedom
When it's time to get up you're gonna know it
You gonna get a felling inside, you gotta show it
You come on relax and put your mind at ease
And forget all your insecurities
You gotta move, nothing can hold you down
And let nothing turn your move around
Just start counting up 2, 3
Come on people just get free
Get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just
You've been holding back to long
Now the feeling is much to strong
Take a look at your other side of your heart
And begin to tear the rules apart
No your Momma can't help you now
And your Daddy can't show you how
You've gotta do it all by yourself
And if you need it here's a little help
Get free, get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free

Freedom dance if you open up
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom

Come on people just
Far away oh freedom
Far away, far away, far away
Far away, far away
Get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just, get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just, just get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free

There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free
There's a chance if you open up
Get free
Freedom dance if you open up
Get free
Freedom
Come on people just get free
In the midst of trouble love
Get free
Gotta find you another one
Get free
Freedom
Come on people just get free
