

# Bring It On Home

**Kix Brooks**

i was lookin for a slow down, when you came around, i just didn't know how  
i never left a bar room, or beer joint, till the lights went out  
but in the middle of a long slow kiss, the light came on  
i been doin this all wrong, i think i'm gonna try holdin on all my life, i been runnin  
and all these nights, i've wasted  
all this time, i've been on the move  
i think i'm gonna stop now and just bring it on home to you yeah this is where i use to make my moves, slip on  
my boots  
i quit good stayin here, just layin here, tangled up in you  
i just never found that one i couldn't resist  
i could get use to this, i think i gonna need one more kiss all my life, i been runnin  
and all these nights, i've wasted  
all this time, i've been on the move  
i think i'm gonna stop now and just bring it on home with you baby  
by my side, not gonna let love pass me by  
not this time, cmon (guitar jam) all my life, i been runnin  
and all these nights, i've wasted  
all this time, i've been on the move  
i think i'm gonna stop now and just bring it on home to you  
gonna bring it on home, gonna shake it on out  
just me and you in this big old house  
gonna have a time gonna find a place in sun now baby  
gonna bring it on home gonna lay it on down  
gonna feel the way that i feelin now forever baby yeah  
gonna bring it on home, gonna bring it on home, gonna bring it on home (fades out)
